Trench Support

Trainer/Speaker: Gary Fisher, Senior Consultant

Aims

To provide the knowledge and understanding required to safely undertake trench support during utility operations.

Target Audience

Utility engineers and managers involved in trench support activities during the installation and maintenance of utility infrastructures.

Duration

4 days – Practical training course underpinned by a direct assessment in line with the requirements of City & Guilds.

Certification

City & Guilds qualifications in timber, steel sheeting and hydraulic systems.

Dates and Location

Dates are available throughout 2007 at Develop's venues in York, Derby, Whitwell and Swindon.

GIRS Design Complex

Trainer/Speaker: Gary Fisher, Senior Consultant

Aims

To provide the knowledge and understanding required to complete gas network designs aligned to the requirements specified by GIRS.

Target Audience

Gas network designers.

Duration

INVQ format – A series of short duration workshops supported by assessment.

Certification

GIRS Design Complex awarded by the Open University.

Dates and Location

Dates are available throughout 2007 at any Develop Centre or on site.

For any further details including costs please refer to the course contact

Gas Network Engineering Management

Trainer/Speaker: Gary Fisher, Senior Consultant

Aims

To provide the knowledge and understanding required to manage gas network operations.

Target Audience

Gas network engineers.

Duration

NVQ format – A series of short duration workshops supported by assessment.

Certification

NVQ Level4 in Gas Network Engineering Management awarded by the Open University.

Dates and Location

Dates are available throughout 2007 at any Develop Centre or on site.

Service and Main Laying for Managers

Trainer/Speaker: Gary Fisher, Senior Consultant

Aims

To provide the knowledge, understanding and skills required to manage gas network operations.

Target Audience

Gas network engineers.

Duration

5 days – A series of 'hands on' lectures supported by assessment.

Certification

City & Guilds management qualifications in PE main laying, butt fusion, pressure testing, commissioning and flow stopping.

Dates and Location

Dates are available throughout 2007 at any Develop Centre.

Foundation Degree – Utilities Management Module: BN1089 – Fundamental Gas Science 1

Trainer/Speaker: Gary Fisher, Senior Consultant

Aims

- Industry specification and legislation that impact on the gas sector
- Fundamentals of natural gas and 3rd family gasses
- Production systems aligned to natural gas and 3rd family gasses
- Distribution and transmission systems

Target Audience

Gas engineers.

Duration

10 days spread over four months. Lectures.

Certification

Unitary accreditation awarded by UCLAN.

Dates and Location

Dates are available throughout 2007/08 in Preston, Derby and Whitwell.

Foundation Degree – Utilities Management Module: BN2088 – Advanced Gas Science 1

Trainer/Speaker: Gary Fisher, Senior Consultant

Aims

- Gas engineering technology
- Pipe materials technology
- The installation and commissioning of pressurised gas infrastructures
- The maintenance of pressurised systems

Target Audience

Gas engineers.

Duration

10 days spread over four months. Lectures.

Certification

Unitary accreditation awarded by UCLAN.

Dates and Location

Dates are available throughout 2007/08 in Preston, Derby and Whitwell.

Foundation Degree – Utilities Management Module: BN2089 – Advanced Gas Science 2

Trainer/Speaker: Gary Fisher, Senior Consultant

Aims

- Gas flow and pressurised systems
- Gas quality and measurement processes
- Gas network analysis and design of gas infrastructures
- The use of gas storage to support end user demand

Target Audience

Gas engineers.

Duration

10 days spread over four months. Lectures.

Certification

Unitary accreditation awarded by UCLAN.
